PROFESSIONAL SUMMARIES

Full Stack MERN Developer and MCA student with hands-on experience in building responsive web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in developing RESTful APIs, authentication, database integration, and AI-powered application features. Completed a 6-month MERN Stack development internship at Maxgen Technologies and developed projects involving e-commerce, restaurant management, and AI integration. Seeking a Full Stack/MERN Developer role to contribute to real-world software development.

WORK EXPERIENCE

MERN Stack Developer Intern

Jan 2026 – Jul 2026

Maxgen Technologies Pvt. Ltd. | Ahmedabad

- Developed responsive web interfaces using **React.js, JavaScript, HTML, CSS, Bootstrap, and Tailwind CSS**.
- Built and integrated **RESTful APIs** using **Node.js and Express.js**.
- Worked with **MongoDB and Mongoose** for database design and CRUD operations.
- Implemented frontend-backend integration using **Axios**, authentication, and authorization concepts including **JWT**.
- Used **Git/GitHub** for version control, debugging, collaboration, and maintaining application code.

PROJECTS

AI-Powered Food & Restaurant Intelligence Platform – FreshBites

- Developed a full-stack **AI-powered food ordering and restaurant management platform** using **React.js, Node.js, Express.js, and MongoDB**.
- Implemented **AI Business Insights, customer behavior analytics, demand forecasting, and food waste prediction** to support restaurant decision-making.
- Integrated **Groq API (Llama 3.3) and Google Gemini API** for AI-powered features including **review summarization, chatbot, recommendations, and sentiment analysis**.
- Built core e-commerce features including **authentication, food search/filtering, wishlist, cart, orders, payments, reviews, and PDF invoice generation**.
- Developed an **admin dashboard** with data visualization using **Recharts**, and deployed the application using **Vercel and Render**.

E-Commerce Website – MERN Stack

- Developed a full-stack **e-commerce web application** using the **MERN stack (MongoDB, Express.js, React.js, Node.js)**.
- Built responsive and user-friendly **product browsing, search, filtering, product details, and shopping cart** functionality.
- Implemented **user authentication and authorization** with secure login, registration, and protected application features.
- Developed **RESTful APIs** using Node.js and Express.js for managing products, users, carts, orders, and application data.
- Integrated **MongoDB with Mongoose** for efficient data management and used **Git/GitHub** for version control and project development.

EDUCATION

Master of Computer Applications (MCA) | LJ University, Ahmedabad | (Current CPI: 8.37)

2025 – Present

Bachelor of Computer Applications (BCA) | RK University, Rajkot | (CGPA: 8.79/10)

2022 – 2025

SKILLS

- Languages:** JavaScript (ES6+), Python, Java, C, C#, SQL
- Frontend:** HTML5, CSS3, React.js, Bootstrap, Tailwind CSS, Redux, React Router, Vite
- Backend:** Node.js, Express.js, RESTful API, Axios
- Databases:** MongoDB, Mongoose, MySQL
- Authentication:** JWT, Firebase Authentication, Google OAuth, bcrypt
- AI & APIs:** Groq API, Llama 3.3, Google Gemini API
- Tools:** Git, GitHub, Postman, VS Code, Nodemailer, Recharts
- Deployment:** Vercel, Render, MongoDB Atlas
